

LEGO Project (optional)

Families,

Students in grades 1 and 2 started a unit of study involving LEGO Engineering and Flipgrids based on the book by Dr Seuss Oh the Places You Will Go!!

Grade 1 built LEGO Places and Grade 2 built LEGO Mazes. Students recorded their creations using flipgrid videos. Oh what fun they had!!! If students have LEGOs at home they can continue this project. If you are interested, please view the details below.

Grade 1 question: What is a place you would like to visit? Build with LEGOs and record a short video using flipgrid explaining what you've built.

Grade 2 question: What is a place you would like to visit? Build a maze with LEGOs showing us how to get there and record a short flipgrid video explaining what you've built.
